RE: John [REDACTED]

Dear Ms. Dagner,

I appreciate your interest in the solving of the Oakland County Child Murders that occurred in the mid-1970s. I have reviewed your concerns and suspicions of John [REDACTED], as the person involved.

Mr. [REDACTED] is alleged to have told you many things which has lead you to believe he is the child murderer. However, after careful review, much of the information he provided to you was common knowledge and available through the news media. Other information provided by Mr. [REDACTED], to you, is incorrect and not factual. At the time of the last murder, it is varified that John [REDACTED] was out of the United States. Further, Mr. [REDACTED] was given a polygrap examination as to his possible involvement in the murders. The results of the Michigan State Police testing is that Mr. [REDACTED] wa truthful to the relevant test questions and not the child killer.

In conclusion, there is no legal evidence that suggests John [REDACTED] is the Oakland County Child Killer. At this time, as a possible suspect, John [REDACTED] is cleared.

Sincerely,

Ray Anger
Detective Sergeant
Berkley Police Department
