

1 that Chris was involved in the "Big Brother" program, indicating that maybe this is where the
2 unknown boy came from.

3 We started talking about the house in Birmingham (Chris's parent's home), to which [redacted] stated
4 that it was a huge home, approximately 6,000 - 7,000 square feet. [redacted] said he stayed there on
5 occasion v [redacted], when his parents in Flint & later in Whitehall, were having
6 problems. His parents later divorced. We asked [redacted] about Chris committing suicide, to which he
7 stated that he remembers that Chris shot himself in the head. We asked him if he remembers why
8 he did it or if there was any talk about why Chris killed himself. [redacted] stated that he doesn't know
9 why, but believes that Chris couldn't live with his problem (pedophilia) any more. We showed [redacted]
10 a picture of the drawing of the kid screaming that was pinned to Chris's bedroom wall when he killed
11 himself and [redacted] appeared visibly shaken, indicating that he had seen the drawing before.
12 [redacted] said again that he had seen this picture before, but was not sure when, stating that he stayed in
13 Chris's room many times over the years. [redacted] t said that he stayed there off and on, but believes
14 that he saw the picture between 1976 & 77. [redacted] t stated that he believes he remembers it pinned to
15 the wall in Chris's room, above his stereo. When asked about Chris doing artwork or drawings,
16 [redacted] t stated that he never knew Chris to do that, but did not know for sure. We showed [redacted] t the
17 crime scene photos from Busch's suicide regarding the ropes found in the walk-in closet. [redacted] t said
18 that he did not know why he had those, but stated that he can imagine why Chris had them and what
19 he did with them. [redacted] t stated that he had not seen those before at the Birmingham house or any of
20 the houses Chris had access to. We asked [redacted] t about any pets that Chris had at any of the
21 houses, to which he stated that Chris had a tan Labrador type dog and that his parents had a white
22 Scottish terrier dog at the Birmingham house that they brought over from Europe. He did not
23 remember, when asked, seeing either dog at the other houses or cottage with Chris. [redacted] t stated
24 he may have taken them to the other places, but he couldn't say for sure.

25 **** The task force has white animal hairs recovered from the clothing of our victims from the original
26 investigation.

27 We also have tan/gold carpet fibers on our victims clothing that
28 could possibly have been from one of the homes or cottage of Busch. The carpets in Chris Busch's
29 bedroom and walk-in closet at his parents home at that time, were tan/gold color. These fibers could
30 also have come from the gold colored ropes/ligatures found in Busch's walk-in closet that he
31 possibly used to bind victims. Some of the fibers we are in possession of were collected from our
32 victim's socks. Two of the victims were determined by the M.E. during their autopsies to have bind
33 marks on their wrist and ankles, possibly from ropes. Therefore, the tan/gold fibers found on the
34 victim's socks, could possibly be from the ropes or ligatures that were used to bind them. Ropes
35 and ligatures were found in Busch's home in Alma and also in the walk-in closet in his bedroom in
36 Birmingham, along with the drawing of what appears to be the Stebbins boy screaming.

37 ****Laboratory Scientist David Metzger from the Michigan State Police Lab in Northville
38 conducted tests in July of 1977 of fibers from Timothy King and fibers from Jill Robinson.
39 Metzger determined the following after these tests: *** Results: Examination of the fiber
40 from Jill Robinson's socks (#7A) revealed that it was microscopically similar in color and
41 physical construction and possessed optical properties in plane polarized light "identical" to
42 numerous fibers removed from the clothing of Timothy King. Metzger also conducted a
43 comparison of fibers from Jill Robinson's blanket to fibers from the genital area if Timothy
44 King. The results of this test was that these fibers were a different shade of yellow and
45 determined to be of an unusual nature, possibly carpet fibers. [redacted] t stated that Busch
46 showed him a movie of boys being anally molested that were tied up. Busch himself told the police
47 in 1977, that he & Greene have discussed their fantasies about kidnapping, tying-up and molesting a
48 boy. *** (A crime scene search for [redacted] t at Busch's home in Birmingham, especially
49 in the walk-in closet where the ropes were found, is forthcoming, along with searches at
other known locations where Busch/Greene could have kept the victims. The

1
2 e
3 We were talking with [redacted] about where Chris was living at certain times and he stated that after
4 Chris was arrested in January of 1977, he lost his restaurant in Alma and he believes the houses in
5 Alma & Sanford. [redacted] stated that Chris ended up living back at his parent's home in Birmingham,
6 where he lived until he killed himself. [redacted] told us that Chris's parents were over seas a lot,
7 because of [redacted] job and because Chris's older brother lived in London, England.
8 [redacted] said that he thinks [redacted] died [redacted] in San Francisco. [redacted] told us that Chris had several
9 homes and places to stay and that he had these places alone, being that his parents lived in
10 England for awhile and also in Germany.

11 We went back to talking to [redacted] about Greg Greene and about Greene's relationship with the
12 other boys in the neighborhood. I asked how well, Greene knew [redacted], to which he stated
13 they knew each other, but I don't remember seeing them together. I asked [redacted] what he would
14 think about [redacted]; telling us that he didn't know Greg Greene, to which he stated that as far
15 as he knows they knew each other. I read a paragraph to [redacted] from the MSP report regarding
16 Greene & Busch's 1977, CSC arrest. The paragraph I read, pertained to the night in 1976 when
17 Greg Greene took [redacted] to the drive-in theatre in Flint. In this
18 paragraph, [redacted] told police that he observed Greg Greene molest
19 [redacted] in the back seat of Greene's car. I asked [redacted] now about [redacted] knowing Greene, to
20 which he stated, I remember that night and I guess that was [redacted] in the back seat with me & Greg.
21 I just can't picture [redacted] there. *** (See Transcripts of this interview for further details) ***

22 3-11-08: Garry & I went to [redacted] looking for [redacted]
23 [redacted]. This is the subject listed in Greene & Busch's arrest report from January of 1977.
24 [redacted] was listed as a suspect in that case, but there is no mention of him in the narrative of the report. He
25 was an adult from St. Clair, Michigan that was charged with Disorderly person. He may possibly be
26 the third person charged in the Flint CSC case with Busch & Green that was mentioned in the
27 newspaper article when Busch & Greene were [redacted] in the OCCK case. The article
28 stated two men [redacted] in connection to the OCCK case, but said three men arrested. [redacted]
29 may be a pedophile associate of Busch & Greene and needs to be interviewed. This address is the
30 Detroit Chapter of Vietnam Veterans building. We spoke with the managers there who had no
31 record of [redacted], but stated that many homeless type people come and go from their office.

32 3-11-08: We received an e-mail from Cindy Ackers today from Jackson Prison in regards to Greg
33 Greene. A couple of guards were interviewed about Greene and both said they do not remember
34 Greene being friendly with anyone, stating that they remember him as a loner, but said that
35 [redacted] was his "bunk-mate" at the time of his death.

36 3-12-08: I drove by Busch's home at [redacted] this morning.
37 The house is situated on the northwest corner of [redacted] t. The home
38 appears to be, structurally, the same as it probably did 30 years ago. There was a burgundy
39 minivan in the driveway, bearing Mi. Lic. Plate [redacted]; I had our dispatch "run" the plate and it
40 came back registered to [redacted]
41

42 3-12-08: I met with Jason Bolinger (FBI) at his office in Troy today. I brought Jason completely up
43 to speed on the Busch/Greene lead and what our investigative plans are on this lead. We were
44 talking about the interview Doan conducted on Christopher Busch in January 1977, just before his
45 polygraph. I told Jason that Busch was talking about being a pedophile and named locations he had
46 picked kids up, or dropped them off at in the past year or so. While naming these locations, Busch
47 lists chronologically the three abduction sites for our first three victims. I told Jason that I believe he
was possibly doing that because he thought his car might have been seen at those locations, so

1 he's putting himself at those same locations on "legitimate type" business as an alibi, or he was
2 simply "laying out a road map" or giving clues of his involvement.

3 Agent Bolinger & I spent some time today formulating questions for the FBI Agent in New York City
4 that is going to be interviewing Chris Busch's brother, and "swabbing" him for DNA. We put
5 together approximately 20-30 questions for Agent MacDonald to ask Busch's brother. We called
6 and spoke to Agent MacDonald and made arrangements to conduct a conference call with him from
7 the MSP Metro North Post on Tuesday 3-18-08 at 12:00pm, to brief MacDonald on the case and the
8 interview and to go over the questions we have for him to ask.

9 **3-13-08: *** (Tape-recorded interview of [redacted], Greg Greene's cellmate in prison for 3**
10 **years before Greene died). ***** Garry Gray (MSP) & I drove to Flint today and interviewed Greene's
11 ex-cellmate, [redacted] at his house in Flint. [redacted] house is located at [redacted]
12 Flint, Michigan. We started the interview by explaining to [redacted] what it is that we are investigating,
13 that he is not in any trouble, and that we were there simply looking for his help. I explained to
14 that we have been investigating this for a long time and that we have interviewed many people
15 surrounding Greg Greene. I also explained to [redacted] that some of the questions we are going to ask
16 him, we already know the answers to and we do that to see if he is going to be truthful with us. I
17 went on to say that I know that he was a cellmate of Greg Greene's before he died and that we also
18 know that they were both from Flint & serving time in prison for the same type of offense (CSC on
19 child u/13). I further explained that we know that they had a lot of time to talk in their cell, and that
20 we know from our experience that cellmates in prison share a lot of information with each other. As
21 we were explaining this to [redacted] he stated that he and Greg did not talk much, and never said
22 anything to him about killing any kids. [redacted] was not very convincing when he made that statement
23 and appeared nervous. While I was talking to [redacted] about the seriousness of what we are
24 investigating, how long it has been and how bad the families of these victims need closure, I handed
25 the photograph of our 4 victims to [redacted] to look at. [redacted] had what appeared to me to be a strange
26 reaction to the picture, when he only looked at it momentarily, then turned the picture over, pushing
27 it back at me, hitting my hand with it as he pushed it back. I almost said to [redacted], "I told you to look
28 at it," but didn't say anything about his reaction to the picture at that time. [redacted] said again that Greg
29 never talked about anything like that and that they didn't talk much. We told [redacted] that we did not
30 think he was "being straight" with us and confronted him with the fact that he appeared nervous and
31 that we did not believe him. We noticed that [redacted] kept looking at his elderly mother who was sitting
32 in the other room. We asked [redacted] if he wanted to go outside to our car and talk and he agreed.

33 When we got out to the car, we confronted [redacted] further about possibly lying to us, at which time
34 he broke down crying heavily and holding his head. We told [redacted] that it was just the three of us
35 now and he did not have to worry. [redacted] then told us that he and Greg Greene were not only
36 cellmates, but they had a sexual relationship. After explaining this, [redacted] appeared to be more
37 truthful after breaking down. We began to ask him questions again about Greg Greene and what
38 Greene said to him about our case. [redacted] told us that Greene told him about kids he had molested
39 in the past and gotten away with it. He also told us that Greene told him that he got away with killing
40 4 kids in the past. [redacted] was visibly upset at this point. His eyes were watering and he was
41 breathing heavy. We asked [redacted] what else Greene told him about it, to which he stated that he's
42 trying to remember, it was along time ago. We asked [redacted] to try to remember when Greene told
43 him this. At this point, [redacted] began telling us about how he found Greg Greene dead in their cell and
44 performed CPR on him until the guards could get up there. [redacted] told us that he does not remember
45 exactly when Greene told him about this, but remembers that they were watching TV and talking
46 about molesting kids in the past when Greene told him about getting away with killing the kids. I still
47 felt that [redacted] was holding back and told him that I get the feeling that he is holding back because he
48 is worried about something coming back on him, to which [redacted] agreed, stating that he doesn't want
49 anything happening to him. We re-assured him that he would not get hurt and that he would not be
50 in any trouble. We talked with [redacted] more about what Greene had told him about killing the kids.
51 [redacted] stated that Greene told him that he knew the police were looking for those kids while they were

1 missing and in his possession. said that Greene told him that he had molested the kids in a
2 field and killed them. We asked if Greene told him where he kept the kids, to which he stated
3 he doesn't remember. said that Greene told him that he had the kids for a few days. We
4 asked if he remembers Greene mentioning the Oakland County Child Killings, to which he
5 stated he didn't remember hearing that. We told we intend on polygraphing him on this
6 information. We asked if it was the truth that Greene told you he killed 4 kids, to which
7 stated, "Yes." We asked how he would do on a polygraph about this, to which he stated he
8 would pass. was stressed and expressed his concerns about telling us this. We asked him if
9 he can remember anything else right now about what Greene told him, to which he stated no. Once
10 again we asked if it was true that Greene told him this information, answered, "yes." We told
11 again, that we would be polygraphing him on this information, to which he stated he would
12 pass. We asked if he remembers Greene talking about another person with him during these
13 killings? stated he didn't think so. I ran the name Christopher or Chris Busch by him?
14 paused for a second, then, said that the name sounds familiar. We told to start writing down
15 everything he can remember about what Greene had told him about killing the kids, and he stated
16 he would. We told him that we would be in touch with him about taking the polygraph and
17 terminated the interview. *** (See transcripts from interview for details.) ***

18 **3-14-08:** Garry Gray (MSP) & I went to the Michigan State Police Long-term evidence storage
19 facility today in Lansing, Michigan. We went there to go through the OCCK evidence, to see exactly
20 which packages of evidence contained the hairs & fibers we will need for future comparisons during
21 the course of this lead. We will be conducting crime scene searches of Busch & Greene's homes &
22 cottage for trace evidence (hairs & Fibers) to collect and compare to known evidence found on the
23 victims. We went through, approximately 10 large bags and/or boxes of evidence such as the
24 victims clothing, victims boots/shoes, and other miscellaneous evidence. We found many slides and
25 containers that held fibers, hairs, blood evidence, & DNA swabs. Some of the hairs and fibers,
26 including animal hairs that were tested and compared during the original investigation, were not in
27 this evidence at this storage facility. Documents located at the storage facility, indicate that these
28 items that were tested, were taken from the long-term storage facility in 1995, to the Northville Lab
29 and not returned. We will be checking with the Northville Lab, due to the fact these particular hairs &
30 fibers will be important for our future comparisons.

31 **3-14-08:** I received an e-mail today from Deputy "Bud" Shaw from The Montmorency County
32 Sheriffs Department, who stated that he made contact with officials from Register of Deeds at
33 Presque Isle County Michigan and also Alpena County Michigan. Shaw stated that there is no
34 record of property in the name of Christopher Busch or his father in either county. It's
35 possible was at Chris Busch's house in Alma and thought it was Alpena, or Busch's
36 house in Alpena was in another persons name or Busch stayed with someone else.

37 **3-15-08:** We are making plans to conduct crime scene searches for trace evidence at several of
38 Busch & Greene's homes/cottage in the near future, especially in light of the information from
39 . We are going to have the State Police Crime Lab conduct these searches, starting with the
40 Busch home on n and the cottage on Ess Lake, where Busch
41 was seen while King was missing. Recovery of any physical evidence during these searches,
42 especially hairs & fibers, will result in immediate comparisons to our trace evidence currently at the
43 MSP Forensics Lab in Lansing, and also at the FBI Forensics Lab in Quantico, Virginia.

44 **3-16-08:** *** (See the Greene "Time-Line," for details of his whereabouts, statements and/or
45 actions during a span of time, beginning when Greene was 15-16 years old living on
46 in Flint thru his death in prison in 1995. This time line also includes Christopher Busch and
47 his association with Greg Greene during the time of the child killings from 1976-1977.) ***

48 **3-17-08:** Garry Gray (MSP) called the Michigan State Police Forensics Lab in Lansing today and
spoke with a Fingerprint Specialist named Michelle Glasgow. She is in possession of the partial

1 Fingerprint that was recovered from Kristine Mihelich during the autopsy. We are going to have
2 Michelle Glasgow, compare Busch & Greene's fingerprints to the partial print from Mihelich.

3 We received an e-mail back a short time later from Michelle Glasgow. She stated that she has
4 located the partial print from Mihelich and it looks like it was from Mihelich's parka. Glasgow also
5 stated that she has some latent prints from an envelope.

6 **3-17-08:** Garry contacted the evidence room (Property Sgt.) at the Northville Lab who is going to
7 check their property room for the hair & fiber evidence that was taken from Long-Term storage in
8 Lansing, for tests & comparisons in 1995.

9 **3-18-08:** Garry Gray (MSP) & I drove to Grand Blanc today to interview Greg Greene's brother and
10 "swab" him for DNA. We went to the home of Greg Greene's
11 older brother. There was no one home, so we left a
12 note and our business cards to contact us, indicating that we were looking for his help in an old
13 investigation.

14 **3-18-08:** We had the phone conference today with Agent "Tommy" MacDonald (FBI) in New York
15 City, who is going to interview Chris Busch's brother and "swab" him for DNA. Present at the
16 meeting was John Ouellet & Jason Bolinger (FBI), Garry Gray & Dave Robetson (MSP) and myself.
17 We went over the background of the case and the background on this lead into Busch & Greene.
18 We also went over questions that we would like Agent MacDonald to ask about his
19 brother. We e-mailed the Agent pictures of the drawing on the wall in Busch's room when he killed
20 himself, along with a picture of the Stebbins boy alive and a picture of him dead at the scene when
21 his hood with the fur around the edge was up, like in the drawing Busch had. Agent MacDonald is
22 going to conduct this interview next week and ship the DNA swab directly to the DNA lab in
23 Quantico, Virginia where our DNA evidence is.

24 **3-18-08:** While we were all at the MSP Metro North Post today, we had an opportunity to discuss
25 the direction of this investigation and give our opinions on what the priorities are and who needs to
26 be polygraphed. We were all in agreement that needs to be polygraphed ASAP. A
27 polygraph for is already arranged for April 7th, 2008 at the MSP 2nd District Headquarters, with
28 polygraph examiner Lt. Robert Dykstra. We all agree that the search of Busch's home in
29 Birmingham should be our top priority for Crime Scene searches and we will start orchestrating this.
30 We then began to discuss whether or not had been truthful during our earlier
31 interviews with him. had told me during my first interview with him that he is a "co-
32 conspirator" and was visibly shaken and scared during this interview, stating that Busch had him
33 perform oral sex on a boy that he (Busch) had brought down from up north. stated that it
34 was the same boy that the police showed him a picture of in 1977 that was dead. identified
35 this as the King boy from the pictures I showed him.

36 I stated that told the police in January of 1977, that Greene approached him and asked
37 him to help him kidnap and kill a boy. stated they did not go thru with it. told us
38 during an interview in 2008, that Busch & Greene would often use him to lure kids over to his car so
39 Greene could get a closer look at them. If Greene was asking (13 year old boy), to help
40 him kidnap and kill a kid, it was probably, based on him using in the passed as a "lure,"
41 because he (Greene) needed to lure the kid towards the car so that Greene could get his
42 hands on the boy. For Greene to ask to kidnap and kill a boy with him there had to
43 possibly be a closer bond between and Greene that stated to us in 2008. From
44 my training and experience, that's not the type of thing a person asked a casual acquaintance to do.
45 There would have to be a certain level of trust or fear between the two, for Greene to even asked
46 . We know, that Greene had choked unconscious in the past, while molesting him
47 and that from his own words was afraid of Busch and Greene killing him. Greene had told
that Busch had killed a boy in the past.

1 **** We agreed that _____ may be "hedging" on cooperation about his possible involvement and
2 it should be a priority to polygraph him ASAP. _____ may have been more truthful during the first
3 interview when he was admitting possible involvement and then got scared and backed off from this,
4 3-4 weeks later during the second interview. He will be polygraphed about his possible involvement
5 and/or his possible knowledge of the crimes and/or Busch & Greene's involvement.

6 It also could simply be that _____, saw Lamborgine on the news in 2006 as the possible
7 Oakland County Child Killer, hates Chris Busch & Greg Greene and is trying to connect them with
8 Lamborgine for the child killings. Once again, this is why it will be important to polygraph _____

9 **3-18-08:** I called _____, counselor at "Operation Get Down" tonight and left a message
10 for him to call me, indicating that I want to talk to _____ again. I also left a message for Jeneay
11 Cheeks, _____, Probation Officer and asked her to call about _____; current location and
12 that I wanted to talk to him again.

13 **3-19-08:** We were discussing _____ today and talking about how he called himself a
14 co-conspirator during the first interview and about him identifying the King boy as the boy Busch
15 made _____ have sex with. We talked about _____ calling me a couple of times after that,
16 concerned about telling me these things and stating that he was scared. My phone rang during this
17 conversation with the number for "Operation Get Down in Detroit." I thought it would be _____
18 counselor, Mr. Phillips returning my call, but it was _____ calling from Mr. Phillips phone.
19 I asked _____ how he was doing and he quickly answered "fine," and asked if the DNA came
20 back. _____ again seemed very nervous about the DNA asking how much longer? I told
21 _____ that it would be a bit yet and stated to _____, "you still want to help us out and cooperate,
22 right? _____?" to which _____ said yes. I told _____ that there are a couple of things we want
23 to talk about with him, and would get in touch with him. I told _____ that I spoke with his probation
24 Officer Ms. Jeneay Cheeks today who told me that he (_____ has been assigned a new probation
25 Officer named Mr. Junious (313-972-4427). I told _____ that Ms. Cheeks told me today that you
26 are due to get out of "Operation Get Down" April 25th, 2008. _____ stated that is right. I asked
27 _____ how long he is on probation, to which he stated January 9th, 2010. I asked _____ where
28 he is going to live when he gets out of the halfway house, to which he stated with his mom in
29 _____ asked me if I wanted the phone number to his mom's and he stated it's
30 _____ I told _____ that we know where to find him and would be in touch with him.

31 **** It was very interesting how nervous _____ was once again about the DNA. It's possible that
32 due to Greene possibly being in the Genesee County Jail, awaiting sentencing on the CSC 1's when
33 the last boy (King) was abducted in Birmingham that Busch used _____ to help him just like
34 _____ was trying to say during the first interview, when he was talking about being used as a
35 "Lure" by Busch all over Oakland County and along Woodward Ave. We will ship _____ DNA
36 swab ASAP to the DNA Lab in Quantico to compare to the white male body hair that was found in
37 the back of Timothy King's mouth during his autopsy. His reaction again today would indicate that
38 he may have indeed been more truthful during that first interview and may in-fact have been
39 involved.

40 **3-19-08: *** (Conference call to Agent MacDonald in New York City about the interview of**
41 **Chris Busch's brother,** _____ We called Agent MacDonald today and briefed him over the
42 phone on the background of the child killing case and the background of this lead. We also
43 discussed the approach of Busch's brother to "swab" him for DNA and the questions we want
44 MacDonald to ask. We then e-mailed MacDonald approximately 15-20 questions for
45 along with photographs from the suicide scene of his brother. These photos included pictures of the
46 ropes and the drawing of the boy screaming found in his brothers room, along with photos of our
47 victims. Agent MacDonald is prepared and will interview and swab _____ next week in
48 New York. MacDonald is going to ship the DNA swab directly to the FBI, DNA Lab in Quantico, for
our comparisons.

1 3-19-08: Garry Gray (MSP) & I drove to _____ This is the home of
2 Greg Greene's younger brother, J _____ . We were attempting to "swab" _____ for
3 DNA and interview him about his brother. There was no one home.

4 We had three phone messages from Greg Greene's older brother _____ when we got
5 back to the Metro North Post. We called him and he asked if this was about a relative. We
6 indicated that it was indeed about his younger brother Greg who died in prison. F
7 agreed to meet with us at 11:30am Tuesday March 25th in Flint. He seemed cooperative and willing
8 to talk to us. We will attempt to get his DNA and will interview him about his brother Greg.

9 3-19-08: *** (Identified the Busch's maid from 1978, named _____) *** I had our
10 dispatch perform a check thru the Secretary of State for the name _____, approximately
11 50-70 years of age. There was only one person listed with that spelling. This was a,
12 _____ with an address of _____

13 3-20-08: I met with Livonia Police Chief Stevenson and Captains Caid & LaBerge today to brief
14 them on the development of the Busch/Greene lead, the investigation into the lead, where the
15 investigation currently stands and what our future plans are to exhaust the lead.

16 3-20-08: I called Donna Jones today in the records section of the Genesee County Sheriffs
17 Department, who is going to try to locate fingerprint cards on Greg Greene for me. She has to have
18 someone go to an off-site storage facility to check, and told me to call her on Monday and she
19 should have an answer for me.

20 3-20-08: I performed a check thru the Lexis-Nexis system on the Busch's maid,
21 The check resulted with only 2 _____ s in Michigan. The first one is the '
22 _____ a. This subject shows no past addresses in Detroit.

23 The 2nd (_____) was born in _____ and shows that she is currently deceased.
24 This subject died in 1995 at 79 years old. This subject shows past addresses in Detroit, and may be
25 the (_____) that was their maid. The Busch's maid had an address in 1978 of _____
26 _____

27 **** After closer review of Bloomfield Twp.'s police reports from the suicide of Christopher Busch, it
28 listed the maid, _____ as a b/f (black female). The black _____ on record in
29 this area is listed as deceased, and would be 95 years old today.

30 3-24-08: Garry called Camp Ojibway today and spoke with Don Mucharin, the Inspector for the
31 Dept. of Corrections who has been our contact for interviewing (_____). We explained to Mucharin
32 that we want to talk to (_____) again, believing he possibly lied during our first interview with him,
33 about him knowing Greg Greene. We explained that we also wish to polygraph _____ ; about his
34 involvement/ knowledge of our case. Mucharin gave the name of a Mr. Fountain, who is in charge of
35 handling _____ ; upcoming parole for The Dept. of Corrections.

36 Garry called and spoke with Mr. Fountain and explained our situation with _____ and our desire
37 to delay his upcoming parole to allow us to continue to investigate him. Garry requested that The
38 Dept. of Corrections, transfer _____ ; to a facility in the Detroit area to allow us easier access to
39 interview and polygraph (_____). Mr. Fountain was very cooperative and receptive to this and
40 requested that we put this request into writing for his office. Garry typed and forwarded this request
41 (e-mail) to Mr. Fountain today.

42 Mr. Fountain called back later in the afternoon today and stated that he received our request, it was
43 approved and _____ would be transferred to a facility in the metro Detroit area on April 1st, 2008.
44 _____ ; will arrive on April 2nd, 2008.

45 3-24-08: I called Livonia Polygraph Examiner Tim Larion today and requested his assistance in
polygraphing _____ in the next couple of weeks, if possible, in regards to his possible

1 involvement/knowledge in the OCCK case. Larion called me back a short time later and agreed to
2 polygraph I on April 2nd, 2008.

3-24-08: I spoke with Donna Jones today, from the records department at the Genesee County
4 Sheriff's Department. She stated that she was able to locate fingerprint cards for Gregory Greene. I
5 asked her for their hard copy of the fingerprints to use for a comparison in our case. She stated that
6 would be fine and that I would just have to sign for them. I told her that we would pick those up
7 tomorrow.

8 3-25-08: I requested that Dave Robertson (MSP) forward and e-mail to the St. Clair County MSP
9 Post requesting any mug shots or reports they might have involving their arrests of
10 in MSP St. Clair in 1977 & 78. The request was sent.

11 We also sent an e-mail to the MSP Intelligence Unit in Lansing, requesting information on whether
12 is still alive and if so where he currently resides.

13 3-25-08: *** (Interviewed Greg Greene's Brother today and "swabbed" him for DNA)
14 *** Garry Gray (MSP) & I met at the General Motors Metal Fabricating plant in Flint,
15 Michigan today, where works, to interview him about his brother Greg Greene. We
16 introduced ourselves and explained to why we wanted to talk to him. indicated that
17 he knew it was going to be about his brother Greg's possible involvement in the OCCK case.
18 indicated that he was willing to talk to us about it. We explained how Mitochondrial DNA works and
19 asked if he and Greg had the same mother, to which he stated that they did. We requested
20 that consent to a DNA Buccal swab for his saliva so we can eliminate his brother as a
21 suspect. asked if we would have to dig his brother up, stating that Greg is buried in a
22 cemetery in Macomb Twp. We told that would not be necessary if we had the saliva sample
23 from him, to which agreed to do and gave his consent. We took 2 DNA Buccal swabs from
24 and placed them into evidence after returning to the Michigan State Police Metro North Post.

25 We then started to interview about his brother Greg Greene. started by saying that
26 he knew about his brother's lifestyle (Pedophilia) and explained that Greg struggled with that until he
27 died in prison in 1995. began to talk about Greg getting arrested and charged in California in
28 the mid 1970's and stated that Greg had hurt a boy real bad. We asked what happened and
29 he told us that a boy was trying to get away from Greg in California, jumped out of a moving car and
30 got hurt. told us that Greg then dropped the boy off at the hospital and that's how he (Greg)
31 got caught. told us that Greg was sentenced to a mental institution in California for what he
32 had done and explained that after awhile, California wanted "rid" of Greg and made arrangements
33 for him to complete his parole in Michigan. stated that his father had to agree to take
34 responsibility for Greg and pick him up at the airport, if California Dept. of Corrections released him
35 from the mental institution. told us that he was the one who picked Greg up at the airport
36 and when Greg stepped off the plane, he noticed Greg's eyes right away, stating that he
37 had a glazed over or crazy look in his eyes.

38 *** We knew already from reports and statements from Greg himself in 1977, that he had actually
39 choked the boy out in California in an attempt to keep him quiet and then, when he thought he had
40 killed the boy, dropped him off at an emergency room and got caught. Greg was charged in
41 California with 50 counts of child molestation, kidnapping & false imprisonment, when he was sent to
42 Patton State Mental Hospital as a mentally disturbed sex offender.

43 explained that he knew his brother had been investigated by the police for the Oakland
44 County Child Killings and had been polygraphed about it after his arrest in 1977, for molesting some
45 kids in Flint. We asked if he knew Christopher Busch, to which he stated that he knew the
46 name, but did not recognize him after we showed him a photo of Busch. stated that Greg
47 had told him that he (Greg) was always frustrated with the fact that he told the police back in 1977,
that Chris Busch was involved in killing those kids and that the police never believed him.

1 We began talking to [redacted] about anything Greg might have said to him over the years, to which
2 [redacted] stated that Greg wrote he and his brother [redacted] a long letter while he was in prison about
3 his life, but stated that they had thrown the letter away after Greg died in 1995. [redacted] stated that
4 Greg died of a heart attack in prison and that the doctors determined that Greg's heart, even though
5 he was only 45 years old, was like that of an old man. [redacted] began talking about when Greg was
6 arrested in January of 1977, for the molestations in Flint he (Greg) had been living with their father at
7 [redacted] said that he was at the [redacted] house after Greg's arrest and
8 found a hidden room in the crawl space of the attic that Greg had built. [redacted] told us that when he
9 found it, he knew what Greg built it for and was sick to his stomach over it. We asked [redacted] to
10 describe this room to us. [redacted] stated that this room had a hidden door that he found accidentally
11 and stated that the people that reside in the home right now probably do not know it is there.
12 [redacted] stated that it was a small room behind a wall in the crawl space and stated that it had paneling and
13 carpeting in it. [redacted] went on to say that the room was big enough for Greg and a boy to stay in.

14 *** We knew from the 1977 police reports, during the interview of the victims of Greg Greene, that
15 one of the victims ([redacted]) told the police that he had stayed in a hidden room in the attic of
16 Greg Greene's house where Greene molested him. We asked [redacted] if Greg ever told him anything
17 about the child killings or his involvement in the killings that might assist us in our investigation, to
18 which [redacted] stated no. We asked [redacted] if Greg did ever say anything to him, would he have said
19 something to the police. [redacted] told us that if Greg ever told him anything like that or if he ever
20 learned any information like that he would have turned him in right away. [redacted] stated that he is
21 Greg's older brother and was not around the house at [redacted] that often and stated that
22 Greg's younger brother, [redacted] that lives in Saginaw was closer to Greg and lived with Greg and
23 their father on [redacted] at that time. [redacted] stated that he would give his brother [redacted] phone
24 numbers and ask him to call us about an interview. *** (See MSP transcripts of this interview for
25 details) ***

26 **3-25-08:** While we were in Flint today, we stopped by the Genesee County Sheriffs Department
27 records section and picked-up a copy of Gregory Greene's fingerprint cards and a photo of Greene
28 from February 1977. These fingerprint cards will be used for a comparison to a partial fingerprint
29 lifted off of Kristine Mihelich's coat from January 1977.

30 **3-26-08: *** (MSP Forensics Lab in Lansing today, with Busch, Greene & Lamborgine's**
31 **fingerprint cards) ***** Garry & I drove up to the MSP lab in Lansing today to give Fingerprint expert,
32 Michelle Glasgow, Busch, Greene & Lamborgines fingerprint cards today to conduct a comparison
33 on the partial latent print from Kristine Mihelich's coat. We spoke with Michelle Glasgow who
34 showed us the partial latent fingerprint. It appeared to be a fairly clear latent print, but Glasgow
35 explained that she may not be able to make an exact identification with our known suspect prints,
36 but the latent is good enough for elimination purposes. Glasgow explained further that she would
37 also be able to determine if the general pattern of our suspects prints match this latent print. She is
38 going to conduct a thorough examination/comparison with our suspect's fingerprints and would
39 contact us afterwards.

40 While we were there, and discussing the case with her and showing her some photographs, she
41 stated that we could use their technical support unit to possibly enhance the photograph from
42 Christopher Busch's bedroom to determine if the shotgun shell that was on the desk, is in fact a 12
43 gauge shell and also if it had contained "#2" shot. This was the caliber and the size of the shot used
44 to shoot our victim, Jill Robinson in the face.

45 *** If the lab were able to determine that the caliber and size of the shot matched what was used on
46 victim Robinson, this would add credence to the theory that Christopher Busch was possibly laying
47 out clues in his room before he shot himself, as sort of a suicide note. Also found in his bedroom
48 was the drawing of the boy (Stebbins) screaming and the ropes/ligatures laying out in the walk-in
49 closet. Busch knew how much the police in 1977 thought of him as a suspect, and possibly thought
50 these would be enough clues for the police to put "two & two" together. It is also possible that there

1 was in-fact a suicide note from Christopher Busch in the bedroom, but the brother C
2 who was at the house that day, picked up the note without the officer seeing it. It says in the
3 police report from Bloomfield Twp. PD, when they responded to the call at
4 that C entered the home with the officer and also entered the bedroom where
5 his brother Chris was found dead.

6 Michelle Glasgow called back later this afternoon and stated that she talked to her technical
7 support unit about our photograph, and they stated if we were willing, they would ship the 2 photos
8 to NASA to be enhanced, stating that they have "state of the art" equipment. We agreed and Garry
9 authorized them to go ahead and ship them to NASA.

10 **3-26-08:** We received a call today from Mr. Fountain at Michigan Department of Corrections in
11 Lansing, who stated that [redacted] parole has been officially violated and he has
12 been put on "suspected felon" status. Mr. Fountain told Garry that [redacted] prior parole date of April
13 15th, 2008, has been suspended until the middle of May 2008. Fountain also stated that [redacted], will
14 be transferred ASAP to the Ryan facility in Southeast Michigan. This will allow us time to re-
15 interview [redacted] and polygraph him.

16 **3-27-08: *** (Sent Greene, DNA Buccal swabs to the FBI Lab via Fed-Ex**
17 **today) ***** Garry Gray (MSP) called me today and stated that he shipped Greene & [redacted] DNA
18 Buccal swab's to the FBI Lab in Quantico, Virginia. The DNA scientist there, Connie Fischer, is
19 going to produce Mitochondrial profiles from these swabs that we have collected and compare them
20 to the DNA from the OCK victims. [redacted]'s DNA Buccal swab obtained from [redacted] by the
21 Georgia Bureau of Investigation was also sent to Quantico today.

22 **3-27-08:** Garry received a call today from the MSP Forensics Lab in Lansing. They were
23 requesting the negatives of the 2 pictures we left for them to enhance, which will make it easier to
24 enhance and will have better quality. One of these pictures was a picture of a "spent" shotgun shell
25 casing on the desk in Busch's bedroom that was found when he killed himself. We were able to
26 locate the negatives of these pictures and will forward them to the lab.

27 **3-27-08:** I briefed Livonia polygraph examiner Tim Larion today on the upcoming polygraphs he is
28 going to administer on [redacted] I brought Larion "up to speed" on
29 these two subjects, their connection to Busch & Greene and their possible involvement/knowledge of
30 the Oakland County Child Killings.

31 **3-27-08:** I called the records office at the Genesee County Jail today and spoke with Donna Jones
32 about Gregory Greene's inmate status from his arrest in January of 1977, until he was sentenced to
33 prison in June of 1977. The only record that she could find was the jail index card for Greg Greene,
34 file #3515, Case #77-00589. Donna faxed me a copy of this card. The card had typed notes on it
35 that say the following: "2/3/77 2 charges CSC 1st Elliott-CC rel SMP [redacted] 6/16/77." I asked Donna
36 if their jail was computerized back then, to which she stated no, indicating that the index cards are
37 what they used back then to track inmates. I asked her to explain what the card said. She stated
38 that the 2-3-77 entry, was when he arrived at the jail, then the charges, then where it says Elliott-CC,
39 was the Circuit Court Judge, indicating that Greene was released after his sentencing on 6-17-1977.
40 She stated that it does not appear as if Greene was ever out of the jail between 2-3-77 & 6-17-77
41 and the card shows 141 days credit for time served, sentenced to "Life" in prison by Judge Elliott. I
42 asked Donna if it was possible that Greene was out of the jail at any time or bonded out and it just
43 didn't get put on the card, to which she stated it was possible, indicating that the cards were only as
44 accurate as the people typing the entries on them, but more than likely if he was out or bonded out it
45 would say that on the card. ***** (See copy of this card from Genesee County jail in the Greg**
46 **Greene file) *****

47 **3-27-08: ***** I was reading thru the pre-polygraph interview Cabot conducted with Greg Greene in
48 1977 and noticed that when Cabot asked Greene what type of person he thinks killed the Stebbins
49 boy, Greene answered, "knew the kid & killed him to keep him quiet." Greene then stated, "Or a 1

1 shot deal, somebody who," then stated, "I don't know." Choking a boy to keep him quiet was
2 Greene's M.O. and it's interesting that that was his first response and then almost as if he caught
himself and changed directions, eventually stating that he didn't know. When asked what should
happen to the person when he is caught, Greene answered, "Completely depends on the person,"
5 another answer that could indicate personal involvement or knowledge.

6 It is also interesting that Greene first mentioned to Cabot that it was someone that knew the kid.
7 Mark Stebbins lived and was abducted in Ferndale, Michigan. During an interview the task force
8 conducted with [redacted] in 1977, [redacted] was asked if he had knowledge of any friends of
9 Chris or Greg's in the Detroit area. [redacted] told the task force that Greg talked about a friend he
10 had in Ferndale and when [redacted] inquired about this friend, Greene would not answer and told
11 [redacted] it was personal. It's possible that this friend of Greene's and/or Greene himself was
12 familiar with the Stebbins boy through this friend in Ferndale or from going to this friend's home in
13 Ferndale.

14 **3-27-08:** I began searching through the Oakland County Child killer Task Force tip files today in an
15 attempt to identify this possible associate of Greg Greene that possibly lived in Ferndale. While
16 searching this database, I found several possible suspects called into the task force in the 1970's
17 that lived in Ferndale and a few that lived on Saratoga St., the same street Mark Stebbins lived on.
18 Unknown at this point, if any of these Ferndale suspects were associated with Greene or Busch.
19 While searching this database, I also found that [redacted] was called in on a tip to the task force in
20 the 70's, but it was not [redacted]. It was [redacted], at the same address of
21 [redacted]. This is possibly the father or brother of [redacted]. This
22 tip was called in by, Berkley Police Officer, Mark Thomas.

23 I performed a check through the Lexis-Nexis database and located [redacted]
24 [redacted] residing at [redacted]. This subject also shows a
25 past address of [redacted]. The age of this subject would indicate that he is
more than likely a brother of [redacted].

27 **3-28-08:** I called and left a message today with [redacted] counselor, Mr. Phillips. I
28 indicated to him that we have [redacted] scheduled for a polygraph on Wednesday 4-2-08 at 1:00pm.
29 I asked that either he or I [redacted] give me a call and stated that I would pick [redacted] up at
30 "Operation get Down" at 12:00 noon on Wednesday for the polygraph and have him back by
31 4:00pm. Mr. Phillips called me back a short time later and stated he would have I [redacted] give me a
32 call on my cell-phone.

33 **3-28-08:** We still have not heard from Greg Greene's younger brother [redacted] who lives in Saginaw.
34 [redacted] was going to have him call us. I left a message today for [redacted], on his cell-phone
35 to have [redacted] call me, indicating that we want to interview [redacted] next week.

36 **3-31-08:** I went to "Operation Get Down" today after not hearing back from [redacted] or Mr.
37 Phillips about the polygraph we have scheduled for [redacted] at Livonia Police Department on
38 Wednesday April 2nd. The clerk at the front desk made a call for me and stated he would be right
39 down. After approximately 10-15 minutes, the clerk called me over and stated that Mr. Phillips
40 signed [redacted] out to the hospital today to visit his brother. I left my card with my
41 cell-phone number with the clerk to have [redacted] call me.

42 **3-31-08:** I called [redacted] home in Saginaw today [redacted] and the son
43 answered the phone. He gave me his dad's number at work [redacted]
44 [redacted]. I spoke with [redacted] Greg's younger brother who was expecting me to call, stating
45 that he had spoken to his brother [redacted] about us interviewing [redacted] last week.
46 [redacted] stated that he was living with Greg and their dad at [redacted] in 1976-77, but that he
47 didn't remember being around the house very much, stating that he was working in Ann Arbor.
[redacted] told me that his dad was real sick back then, with ulcers. [redacted] mentioned the
49 name [redacted], but stated he didn't remember a lot of people in the [redacted]

1 neighborhood back then, stating that he didn't know how much help he would be. I asked him if he
2 remembers a Chris Busch, to which he stated Busch sounds familiar, but he knows some Busch's
3 so he wasn't sure. [redacted] agreed to meet us for an interview, Friday April 4th at 11:30am in the
4 Arby's parking lot on M-46, just west of I-75 in Saginaw. I gave him my cell-phone number and
5 Garry's desk number in case he can't make it.

6 **3-31-08:** I went to [redacted] today and spoke with [redacted] and requested a time that
7 we could interview him in length about Christopher Busch & Greg Greene. [redacted] indicated that he
8 knew Greg Greene, [redacted] but stated that he did not
9 remember a Chris Busch. [redacted] stated that these are names he hasn't heard for 25-30 years.
10 [redacted] agreed to an interview on April 1st, 2008 at 12:00 noon at his house.

11 **4-1-08: *** (Tape-recorded interview of [redacted] today in Linden, Michigan.) ***** Garry
12 Gray (MSP) & I went to [redacted] today and interviewed [redacted].
13 [redacted] lived in Flint in the 1970's and was an associate of Greg Greene, [redacted]
14 [redacted] stated that he first met Greg Greene while hitchhiking with
15 [redacted] in Flint in the mid 1970's. [redacted] stated that Greene gave them alcohol and marijuana
16 to smoke and would "party" with them. [redacted] admitted being molested by Greene back then,
17 stating he was with Greene approximately 5 different times. [redacted] told us that Greene molested
18 him orally and anally, but that Greene never used any type of force or violence to commit these acts
19 against him. [redacted] also stated that he was never alone with Greene, stating that it was usually
20 Greg, him & [redacted] [redacted] stated that he was fairly close with
21 [redacted], closer than any of the other boys in the neighborhood, including the
22 [redacted] talked about an occasion when he, Greg and [redacted] went to a motel and had sex.

23 [redacted] began talking about [redacted] not really having any friends in the neighborhood and
24 that kids would chase him and beat him up. [redacted] told us that the [redacted]s were especially
25 rough on [redacted] stating that [redacted]s hated [redacted] stated that he was, friends with
26 [redacted] partly because he felt sorry for him. [redacted] told us that Greg Greene beat [redacted] up real
27 bad one time, stating that he remembers that [redacted] had blood in the whites of his eyes.
28 [redacted] said that he didn't know why Greene did this to [redacted] and that he didn't think [redacted] ever told him
29 why, but he couldn't remember. [redacted] told us that he did not know Chris Busch, didn't recognize
30 Busch from the photos we had, but stated that [redacted] was with Greg Greene all the time.
31 [redacted] went on to say that he knew [redacted] and his younger brother [redacted], stating that he also
32 knew their dad [redacted] (Chris's brother), but did not know Chris Busch.

33 When we told [redacted] what it is that we are investigating, he stated that he never heard anything
34 about hurting or killing any kids and that he never heard [redacted] mention anything like that.
35 We asked [redacted] if Greene ever used him to lure kids to the car, to which he stated, no. We asked
36 [redacted] if he ever heard about [redacted], Greene or any of the other boys in the neighborhood going
37 up north to a cottage with a friend of Greene's (Busch), to which [redacted] stated, no. None of the
38 other information [redacted] supplied investigators about Greg Greene was of immediate assistance to
39 investigators in this investigation. ***** (See transcripts from this interview for further details). *****

40 **4-2-08:** I drove by [redacted] house in Berkley this morning, at
41 [redacted] There were no cars in the driveway, no cars in front of the house and no cars in
42 the garage, which was standing open. There were no curtains in any of the windows and some type
43 of a "warning" sign was in the front window of the house. It appeared as if it were vacant and
44 possibly condemned.

45 **4-2-08: *** (Polygraphed [redacted] today at Livonia Police Department) *****
46 [redacted] was polygraphed today, by Livonia Polygraph Examiner Tim Larion. [redacted] was
47 polygraphed on his possible knowledge of the Oakland County Child Killings and/or his involvement.
Garry Gray (MSP) & I were present and witnessed the polygraph of [redacted] prior to the first

1 polygraph chart, denied any participation in the murders, denied being present when they
2 occurred, or withholding any information on who committed the crimes.

The subject was asked the following relevant questions which he answered as indicated:

-
- 4 1.
5 2.
6 3.
7 4.
8
-

14 **4-3-08:** Garry Gray & Dave Robertson (MSP) took the negatives from the photos taken by
15 Bloomfield Twp. PD at Busch's suicide scene, to the MSP Forensics Lab in Lansing today. They are
16 going to have the negative enhanced/enlarged and they are also going to try to identify the markings
17 on the single, spent, shotgun shell casing on Busch's desk.

18 They also went to the MSP long-term evidence storage facility today to locate & remove the
19 "wadding" & "pellets" from the Jill Robinson homicide for comparison.

4-4-08: * (Tape-recorded Interview of _____, Greg Greene's brother in Saginaw) *****
21 Garry Gray (MSP) & I met and interviewed _____ today in Saginaw. _____ had agreed
22 previously to meet with us and discuss his brother Greg's possible involvement in the Oakland
23 County Child Killing case. _____ told us that he remembers his brother coming back from California
24 to Flint in the mid 70's and that he (Greg) was really different when he got back. _____ stated that
25 he remembers telling his dad that something is wrong with Greg since he returned. _____ told us
26 that he had talked to his brother _____ about us interviewing him and stated that he didn't know
27 what else he could tell us that his brother _____ didn't already say. _____ stated that he lived at
28 the house at _____ with his dad and Greg when Greg got back from California.
29 _____ said that Greg got a job working with his uncle doing deliveries of appliances in Flint after he
30 returned to Michigan. _____ stated that he was working a job selling shoes in Ann Arbor after Greg
31 returned, stating that he wasn't around the house in Flint very often. _____ told us that he was
32 aware of Greg's problem with Pedophilia, stating that he didn't realize what was wrong with his
33 brother (Pedophilia) until after Greg was arrested for child molestation and went to prison.
34 talked to us about the "hidden room" that Greg had in the attic of the house on _____ in Flint,
35 stating that he found out later that Greg had a boy stay in that room that he (Greg) was molesting.
36 _____ kept mentioning a boy named _____ asking if we heard of him, stating
37 that he was with Greg a lot in the 70's before Greg was arrested.

38 We asked _____ about vehicles that Greg was driving back then. _____ told us that he
39 remembers Greg driving a van and could never figure out why his brother would want to drive a van,
40 until Greg was arrested and charged with child molestation and then he understood why Greg had
41 the van. _____ stated that it was a tan or brown colored van.

42 _____ told us that Greg wrote a long letter while he was in prison about his problem of Pedophilia,
43 out-lining why he thinks it started. _____ told us that Greg stated in the letter that he thinks his
44 pedophilia started when he was about 12 or 13 years old and some kids made fun of his penis while

1 in the shower after gym class. explained that Greg stated that his penis was never
2 circumcised and that's why the kids teased him. said that it was as if Greg were saying he
3 was searching for the perfect penis. said that there was nothing in the letters about hurting
4 or killing any kids; but he remembers that a boy got hurt jumping from Greg's moving car in
5 California trying to get away from Greg. went on to say that Greg then took the boy to the
6 hospital and that's how he got caught. We told that what actually happened was that Greg
7 choked the boy to keep him quiet and almost choked him to death and that's when Greg panicked
8 and took the boy to the hospital and got caught. stated that he never heard that before,
9 stating that his brother Greg was always lying about things and twisting things around in his favor.
10 said that he believes his brother had the box of belongings they received of Greg's
11 from prison after he died. stated that he didn't think that still has any of Greg's things.
12 did not supply any other information that would assist immediately in this investigation. The
13 interview was terminated. *** (See transcripts from this interview for further details) ***

14 *** The story relayed about his brother Greg getting into Pedophilia because he was teased
15 about his penis & in search of the perfect penis, matches what told the police in the 1977
16 MSP report when he stated that Greg approached him about kidnapping and killing a boy, stating
17 further that he (Greg) would then cut-off the boys penis and put it in a box for

18 **4-4-08:** Garry & I stopped by ('s place of employment today at Coldwater Rd. & Saginaw
19 Rd. in Flint to make sure d is all set for the polygraph on 4-7-08. was not real happy to
20 see Detectives. We told him that the State Police from the Flint Post would pick him up at his house
21 on Monday at 11:30am to bring him to the Northville post for his polygraph. stated reluctantly
22 that he would be ready at 11:30am Monday to be picked up.

23 **4-7-08:** We heard from Agent Tommy MacDonald, New York FBI today about the lead we sent him
24 on . MacDonald stated that he made phone contact with Chris's Busch's brother,
25 , who is currently in South Carolina on vacation. MacDonald stated that
26 lives in Conneticut and keeps the apartment in Manhattan for weekend visits. MacDonald stated
27 that ' appeared cooperative and agreed to call MacDonald at the FBI in New York for
28 an interview when he returns home in Late April or early May.

29 **4-7-08:** Garry called the Ryan Correctional facility and made arrangements for us to interview
30 in the morning on Wednesday 4-9-08. This is the prison we had transferred
31 to from Ojibway Correctional in Ironwood, Michigan.

32 **4-7-08: *** (Polygraphed ' today at the MSP 2nd District Headquarters) ***** The
33 State Police from the Flint Post brought down to the Northville Post today for his polygraph. Lt.
34 Robert Dykstra from MSP is the Polygraph Examiner that conducted the test. Prior to the test, Lt.
35 Dykstra went through a pre-polygraph interview with I to assist him (Dykstra) in formulating the
36 questions for the polygraph. During this interview Dykstra asked if it were true that when he
37 was cellmates with Greg Greene in prison in the mid 1990's, Greene told him he had gotten away
38 with killing four kids, to which ' answered, "No." Dykstra told ne was confused, indicating
39 that Detectives Williams & Gray, that interviewed you a few weeks-ago, told him (Dykstra) that you
40 said Greene told you he killed four kids. stated that he never said that and never told the
41 police that.

42 Lt. Dykstra then formulated the questions an administered the polygraph test on During the
43 test, Dykstra asked I
44

45 After the test was complete Lt. Dykstra reviewed the relevant questions along with i
46 responses to these questions and observed, based on his training and expertise in the polygraph,
47 that

48 i. After a period of time, admitted that he

1 had lied on the polygraph about what Greg Greene had told him and admitted that Greene did in-fact
2 tell him, while they were cellmates in the mid 90's that he had gotten away with killing four kids. Lt.
3 Dykstra asked, "when did Greene tell you he killed those kids? To which [redacted] stated, " in the
4 1970's." [redacted] told Lt. Dykstra that he lied on the polygraph because he was scared about getting
5 involved and getting hurt. When asked, [redacted] stated that when he told Detectives Williams & Gray
6 about what Greene had told him in prison about killing those kids during the interview a few weeks
7 earlier, he had told them the truth.

8 **4-9-08: *** Greg Greene's fingerprint ruled-out after being compared to the partial print from**
9 **Kristine's parka. ***** Garry Gray (MSP) received an e-mail today from Michelle Glasgow, the
10 fingerprint expert at the Michigan State Police Forensics Lab. She stated that the latent print from
11 Kristine Mihelich's parka needs a lot of work and she is going to look into digital enhancement
12 technology to see if there is any, new developments that she might be able to use. Michelle did say
13 that she can rule out Greg Greene based on the fingerprint pattern, stating further that the other two
14 we submitted (Lamborgine & Busch) she can't say either way without more clarity and is working on
15 that.

16 **4-9-08:** Garry Gray has been in contact with Reinhard Pope, an expert from the State Police
17 Forensics Lab, who is looking into enhancing the photos from the Busch suicide scene for us.
18 Reinhard is going to be looking at the photos and negatives today for us and we will be sending him
19 a copy of the old lab report on the "wadding" & "pellets" from the shotgun shell and gun that killed Jill
20 Robinson.

21 **4-9-08: *** (We went to Ryan Correctional today and interviewed [redacted]) *****
22 Garry Gray (MSP) & I went to Ryan Correctional today and interviewed [redacted] about why
23 we believe he lied to us about knowing Greg Greene. [redacted] was upset when we got there about us
24 having him transferred to Ryan Correctional and holding up his parole. We explained why this was
25 done, the importance of the investigation and what it is we wanted from [redacted] prior to him being
26 paroled. We explained that because he associated with Busch & Greene at the time of the Oakland
27 County Child Killings, we want to make sure he didn't have information about the killings that he was
28 holding back or repressing in his memory. We explained to [redacted] that Busch & Greene are our main
29 two suspects, that he [redacted] was just a kid at the time and that we, at this point have no intention of
30 charging him with anything, we simply want to clear him of possibly having knowledge of the case
31 from Busch & Greene. [redacted] indicated that he wanted to talk to his sister in Montana first and also a
32 lawyer. We asked [redacted] if he would be willing to consent to a saliva swab for DNA, to which he
33 stated that he didn't want to do that either until he made some phone calls. We told [redacted] to call
34 whoever he wanted to and if there is an attorney that had questions, he (the attorney) could call
35 either myself or Garry and we would explain that we are simply attempting to clear him of having
36 possible involvement or knowledge in the child killings. We also explained to [redacted] the 4 questions
37 that would be on the polygraph test and asked him how he would do on those questions, to which he
38 stated he would pass, no problem. We terminated the interview at this point and told [redacted] to let us
39 about taking the polygraph as soon as he can.

40 **4-10-08:** I had received several calls from [redacted] sister, [redacted], from Montana in the
41 past few days, in regards to [redacted] parole getting delayed because of our investigation. I called her
42 back today and explained the situation to her and that we are simply looking to clear [redacted] on any
43 possibility that he might have information because of his association to Busch & Greene during the
44 time of our homicides. She said that she understood what we are trying to accomplish, she has
45 concerns about her brother's rights and wanted to talk to a lawyer for him before he decides on
46 taking the polygraph. [redacted] is supposed to parole to his sisters home in Montana when we are
47 through with him. She took my cell-phone number and stated she was going to talk to [redacted] and an
48 attorney about all of this and call me back.

49 **4-14-08:** Garry Gray (MSP) sent me a copy of an e-mail today that he sent to Mr. Fountain at
50 Michigan Department of Corrections. Fountain is the corrections official in Lansing that had

1 transferred from Camp Ojibway in the upper-peninsula to the Ryan Correctional Facility in Detroit a
2 few weeks ago so we could re-interview him. Garry informed Mr. Fountain that ' was
3 not completely honest with investigators when we interviewed him at Camp Ojibway, and that now
4 he wants to talk to an attorney before he cooperates with us. Sgt. Gray reminded Mr. Fountain of
5 the seriousness of this case and the importance of cooperation. Fountain was also
6 informed that if ' refuses to cooperate in our investigation of the child killings, he then, due to
7 his) close association to Busch & Greene, puts himself in the suspect category.

8 **4-14-08: *** (Took photos of Greg Greene's old house in Flint today) ***** I drove to
9 ' today. This was the house Greg Greene lived in, in the mid to late 1970's, with
10 his sickly father and younger brother ' this is also the house that Greene lived in when he
11 was released from ' California and returned to Michigan. This house is the
12 house that Greene's brother's ' both told us had a secret, hidden room in the crawl
13 space of the attic that their brother Greg built and used to keep and molest boys in. I took a couple
14 of digital photos of the house. It is a small bungalow or 1 1/2 story style home with yellow siding.
15 There are windows at each end of the upstairs, indicating that it may be used as a living area. There
16 did not appear to be a garage or shed of any kind in the rear yard, but there was a large custom van
17 blocking the view to the back.

18 **4-14-08:** I drove by the house today, listed for ' at
19 Michigan. I wanted to try to determine if ' r was still living there or if it was empty. There
20 was a sign in the front window that was a warning against trespassing or vandalism. The name on
21 the sign was JCI REO Servicing Corp. with a phone number of 800-399-3131. I pulled up in the
22 driveway today and determined that the house is in-fact sitting vacant.

23 **4-17-08:** I drove by ' ty today to see what cars were at the house. This
24 is the home of ' ; son. There was a silver Dodge Ram Pick-up in the driveway,
25 bearing Mi.Lic. # ' registered to a ' .
26 There was also a cream colored Lincoln in front of the house, bearing Mi. Lic. # ' , registered
27 to ' . It does not appear as if the ' s are at
28 this address anymore. The next address to check is at ' .
29 ' brother ' may also be staying there with his
30 brother.

31 **4-17-08:** I called "William's Refrigeration & Heating" today, located in Warren, Michigan. This is the
32 company listed on ' ; probation record as his employer. I spoke with a manager
33 there who stated that ' no longer works there.

34 **4-22-08:** I drove by ' ; brothers ' nouse today at
35 There were no cars at the house and no one was home. I was going to make contact with ' to
36 have ' give me a call.

37 **4-22-08:** Garry Gray (MSP) called me at home tonight and stated that Agent Tommy MacDonald
38 (FBI) in New York called him earlier this evening and stated that he interviewed and swabbed Chris
39 Busch's brother, ' tonight for DNA. Agent MacDonald told Garry that he and a female agent
40 from his office conducted a 3-hour interview of ' n at the Busch's home in Connecticut.
41 According to the agent, ' was hesitant at first to consent to a DNA saliva swab and talked
42 about speaking with an attorney first. Busch's wife then arrived home during the interview, asked
43 some questions about the DNA and then advised her husband, ' to go ahead and give the
44 agents a DNA saliva sample. (' h then gave his consent at which time Agent MacDonald
45 collected the saliva DNA from Busch with a Buccal swab. The swab was then packaged, sealed,
46 initialed and transported to the FBI Office where it was secured overnight. The following morning,
47 the sealed, secured sample was shipped directly to the FBI Lab (DNA Section) in Quantico, Virginia.
48 This DNA sample will be compared to DNA evidence from our victims in this case. *** (See Special
49 Agent MacDonald's report of this interview for details) ***

1 4-24-08: I drove by [redacted] today and took a few digital photo's
2 of the house to have somewhat of a better idea on the size of the home, the layout and to have it
3 documented for the file in this lead.

4 4-25-08: I performed a check today through the Lexis-Nexis database today on
5 the owner of [redacted] This is the home that the Busch
6 Family resided in at the time of the Oakland County Child Killings. This check showed the owners to
7 be [redacted] who bought this home in May of 2005. The results also showed that
8 [redacted]
9 [redacted]

10 I performed a check through the Secretary of State database and located
11 [redacted], with valid Michigan drivers licenses at [redacted]
12 [redacted] n showed a date of birth of [redacted]) showed a date of
13 birth of [redacted] Neither subject showed any warrants or a past criminal record. I was able to
14 obtain photos of both subjects through the Secretary of State driver's license photo file (MIDRS).

15 4-28-08: It has been approximately 3 weeks and we still have not heard back from [redacted]
16 or his sister on whether or not he is going to take the polygraph about his knowledge/involvement
17 with Busch & Greene in the OCKK case.

18 4-28-08: *** (FBI report from the interview of Chris Busch's older brother,
19 in New York City) ***

20 We received the faxed report today from Special Agent MacDonald (FBI), on the interview of
21 [redacted] that he and his partner conducted at Busch's part-time residence at [redacted]
22 [redacted] h was cooperative and agreed to an interview with
23 the agents. [redacted] was somewhat hesitant at first to supplying agents with a sample of his
24 DNA, but later agreed, but with conditions. These conditions are listed on the second page (shows
Pg.4" at the top) of the following FBI report that I scanned into this on-going report.

26 *** It is interesting that [redacted] has conditions to supplying DNA as far as us notifying him
27 prior to making any announcement (press conference) on the results of the DNA. He also requested
28 that prior to the Task Force making any announcement about Christopher Busch's DNA in the
29 OCKK case, that Busch family members in Michigan be allowed to enter a witness protection type
30 program. According to MacDonald's report, [redacted] ; was adamant about these conditions
31 being agreed to prior to supplying his DNA.

32 *** See the following FBI report for details of the interview:

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 04/24/2008

On April 22, 2008 (Tuesday) at approximately 3:10pm.

C (hereinafter "CHARLES"), was interviewed at his part-time residence located at [redacted] by Federal Bureau of Investigation (FBI) Special Agents Thomas P. MacDonald and Barbara A. Daly. [redacted] was advised of the identity of the interviewing Agents and that the interview pertained to a Michigan cold-case matter known as the "Oakland County Child Killing" investigation in which his brother, CHRIS BUSCH (hereinafter "CHRIS"), was a potential suspect. [redacted] provided the following information:

BACKGROUND INFORMATION

The Busch family consisted of four children, all boys. [redacted] were both older than [redacted] and CHRIS was seven years younger. The family moved around quite infrequently when the boys were young as [redacted] father was an executive with General Motors. [redacted] is the only living member from his immediate family;

[redacted], who CHARLES described as a homosexual and "sort of an activist", died of leukemia in England where he had lived for several years. [redacted] had no children.

[redacted] died approximately five years ago in Michigan of congestive heart failure and diabetes. [redacted] advised that [redacted] struggled in his life with alcoholism but had stopped drinking at the time of his death. [redacted] has two children who are alive today, both living in Michigan. [redacted] is John's adopted son, and he is currently believed to reside at [redacted].

[redacted] is John's biological son and is believed to reside at [redacted]. [redacted] has a daughter named [redacted] whose mother is [redacted] and according to [redacted] are no longer together but remain friendly. [redacted] stated that it was "a little dysfunctional", but that [redacted] is now involved with [redacted] and [redacted] lives with the two of them. [redacted] advised that both of [redacted] children [redacted] have struggled with [redacted] and have in the past been in trouble with the law. [redacted] advised that his contact with them is mostly telephonic, and on a monthly basis.

Investigation on 04/22/2008 at New York, NY
