

Dear Mr. King,

You don't know me but I have been reading your columns about your son Timothy who was kidnapped and murdered by the Oakland County child killer. I am very familiar with the case cause I was exactly the same age as your son at the time of the abduction. In fact I just turned 12 in March of 1977. I don't really remember too much about the other children who were abducted and murdered before your son, but I remember it was on TV news every night and I even remember you were on TV pleading for that monster to not harm your son, and your then wife saying she wanted to take him to KFC his favorite restaurant. I felt so bad I even felt like crying when I heard that even if I didn't know him and I was really hoping he would be rescued safely. I lived in Toledo at the time but we would always get the Detroit News on. Well, I could not believe it but he dumped his body off one block from my Aunt's house in Livonia. I remember we all went to my Aunt's house the next day and

She was telling us that Police was all over the place with helicopters flying around and I was thinking could I be next. I wasn't really too worried being I lived in Toledo and haven't given it too much thought when later in that year I was riding with my mom and a blue gremlin was passing us up. I didn't pay much attention to it at first until my mom said My God he looks like he's staring right at you. As he passed us I noticed he did have Michigan Plates on. I wish I could have remembered the number and he pulled into a gas station got out and was talking to a man and he looked like he was asking for directions as he was pointing. He looked just like the guy on the wanted poster that I seen at a gas station when I visited my Aunt. I really studied his face out in case I ever encountered him. Anyway I still wasn't too sure being I was from Ohio. I was wondering if he's from Oakland County what would he be doing here. But as I googled about the case I read about a letter that a guy called himself Allan was living with a guy

Named Frank and he had a blue gremlin but he dumped it in Ohio and I was like wow I wonder if that was the guy I saw. I still can't believe this case hasn't been solved after all these years. With all these suspects and information they have on it makes me wonder if this is a giant conspiracy cover-up where police are involved in it or its a giant pay off to keep quiet about it. I mean lets look at the suspects, Chris Boesh the one you believe and I believe as well is the main suspect, a known pediphly was questioned shortly before your son was murdered supposedly passed a lie detector test but later i heard failed it and admitted him and his buddy Gregory Greene would go out and look for young boys and they asked him where would you look for them and he said Ferndale Royal Oak and Berkley in consecutive order of the places where these kids lived that were murdered, I mean come on the guy is practically admitting he did it how could the police be that stupid. And he was talking about how him and Greg would get day and night jobs. so that way

one of them would be home to watch them. Now how is it that Greg was sentenced to Life in Prison but Chris was only given probation for the same crime of child molestation on different crimes not related to the Oakland County child slayer. I'll tell you why I think because his dad was Vice President of General Motors and I believed he paid someone off to keep his son from going to Prison. I mean whoever did it had to be really confident that he could get away with it as he would place the bodies carefully and even one was placed near the Troy Police Station and puts a bike in the back of a store on another occasion and it's amazing no one sees him doing it, or else the Police just ignored the tips that they got which also makes me suspicious that they may be involved as well. Now take suspect James Gunnels, he was only 16 at the time why would a kid his age would want to hang around a guy like Boesh in the first place, and where was his parents at when all this was going on. How is it his DNA is found on one of the

Victims but yet he isn't charged with accessory to murder. He even admitted to holding his breath to throw the Lie detector off. I would threaten him to tell what he knows about it or charge him with accessory to murder. I believe he is a spineless coward who was afraid of Boesh and either him or Boesh wrote that so call Allan letter expressing remorse and the Motive was cause a guy named Frank had to murder children in Vietnam and wanted to get even with ~~the~~ the rich people for sending troops over their. And thinking about suicide which Boesh eventually did. Boesh also had a white dog and hairs from a white dog were found on all the victims. Plus when he killed himself, it was the same caliber gun used on Jill Robinson, Victim Number 2. I don't know if he really committed suicide or one of his buddies did him in from keeping him from talking but either way good riddance. He also had a picture of a boy who looked like Mark Stebbing the first victim, in agony pinned to his wall and his buddy Greg even admitted he Boesh strangled Mark. Everything says guilty

to me. Then theirs Arch Sloan who
claims he loans his car out to other
ped. flyps had hair sample from both
Mark and your son TIM in his car but
yet knows nothing about it come on.
Why wasn't he ever charged in the case.
Who loans their car out that long anyway
as some of them were kept alive at least
four days. Oakland County is very rich
Why would they need to borrow his car they
can afford to ~~buy~~ buy their own car. Well
anyway I think they were all ~~working~~
working together as a conspiracy and
the cops either blew the case or else
were involved as well in my opinion. Sloan
also had a job at a garage on 10 Mile
and Middlebelt to 2 miles ~~at~~ from where
TIM was dumped off at. ~~How convenient.~~
Anyway Barry I want to extend my
condolences to you and hope you blow
this case wide open and get the answers
you're looking for. I would love to have
some feedback from you. You can write
me back if you like and or call. My
Number is ([REDACTED])

Sincerely
